Definitive List of Columns in tab-separated ASCII files for ACIS command procedures.

Col	Title	Description
1	Step #	value like 1.0,1.1,1.2 indicating step in the procedure
2	Title	
3	Time	Predicted elasped time to execute step and verify if required, in minutes
4	CMD Description	Text from IP&CL which will appear on SOT ACIS screens
5	CMD Mnemonic	ACIS command mnemonics from IP&CL or Ford's SW command mnemonic memo
6	CMD EGSE	Text on ACIS EGSE SW
7	Sequence Key	Name of command sequence in the ODB
8	TLM Description	Text from IP&CL which will appear on SOT ACIS screens
9	TLM Mnemonic	ACIS telemetry mnemonics from IP&CL or SW telemetry structures
10	Expected Value	Value of HW telemetry verifier
11	Units	units of verifier
12	TLM EGSE	Text on ACIS EGSE SW
13	Other Verifier	Other HW or SW telemetry values which verify proper execution
14	Criticality	1: HW verifier must have right value to proceed 2: Expect HW verifier to have correct value but proceed regardless A: SW telemetry must have correct format to proceed B: Expect SW telemetry to have correct format but proceed regardless Blank: proceed without any verification
15	Description	Additional text describing purpose or execution of step
16	Notes	Footnotes for references or additional discussion
17	RT Con	Real-time contact rewquired, either Y or blank for No
18	TLM Fmt	TLM format required to execute step
19	Min Alt	Required minimum altitude in thousands of km
20	SIM Pos	Required SIM position, ACIS-I, ACIS-S, HRC-I, HRC-S

The last row in the file will include a value for the total time computed by summing the entries in column #3 above.
